

Your guide to bathroom solutions

Raymor *In all the best places*

Simple ideas for maximum effect

“ When choosing a vanity, keep in mind the different basin options available for your particular unit. Many vanities offer a wide selection of basin options such as semi-recessed, vessel or countertop, but may only allow for a mixer rather than a three-piece tapware set. Prior to purchase, check the position of the water inlet and waste outlet in your home. If they are currently placed in the floor, they will have to be moved to the wall in order to utilise a wall hung vanity. ”

The bathroom specialist

Bathing in the spotlight

“ For a modern approach, clever use of lighting and mirrors will set you apart from the crowd. Highlighting key products with a down light will not only show off the finish of each product, but will also allow chrome tapware, accessories and waste grates to sparkle. Large mirrors create a feeling of space within the room, and in this case, allow city lights to seem a part of a luminous bathing experience. ”
